

TONBANKCARD Whitepaper

Introduction

TONBANKCARD is an innovative fintech startup founded in 2022. Our main goals are the introduction of advanced technologies and the creation of convenient financial solutions for users. In 2023, the project attracted the attention of an Indian startup portal [Tracxn.com](https://tracxn.com), known for his in-depth analysis and monitoring of promising startups around the world. Recognition Tracxn.com highlights our potential and importance in the fintech industry.

Our achievements

Since its inception, we have developed and launched several key services:

1. [TONBANKCARD Exchange](#): A platform for secure and confidential cryptocurrency exchange without the need for registration.
2. [TONBANKCARD Ecosystem Virtual Card](#): A virtual card for using products within the ecosystem.
3. [TONBANKCARD Financial Information Portal](#): A daily portal of financial information about cryptocurrencies, providing up-to-date data and analytical reviews.
4. [TVL TON Visualization](#): A service for visualizing the total amount of blocked funds (TVL), allowing users to track financial flows and asset status in real time.
5. [Unlimited TON Bridge](#): Discover TON Bridge – a reliable bridge between TON and BSC blockchains. Learn how to quickly and safely conduct cryptocurrency transactions between two popular blockchain platforms using TON Bridge.

Partnerships and cooperation

We are proud of our cooperation with the largest cryptocurrency exchanges, including Binance, ByBit, OKX, MEXC Global and KuCoin. These partnerships allow us to integrate best practices and technologies into our products, ensuring reliability and efficiency for our users.

Also, our main cryptocurrency exchange partner is ChangeNOW, which provides high liquidity and speed of operations.

TONBANKCARD token (TBC)

For internal interaction within the ecosystem, a TONBANKCARD token (TBC) has been created with a total issue of 1,000,000,000 tokens.

- 80% of the tokens are in the TONBANKCARD fund to ensure the stability and development of the project.
- 20% are intended for presale:
 - 11% will go to liquidity.
 - 5% for the development of new products and services.
 - 2% for the support of the team.
 - 2% on marketing and promotion of the project.

Using funds from the presale

The funds received from the presale will be directed to:

1. Liquidity: Providing liquidity to support trading of TBC tokens on various platforms.
2. Development: Creation and improvement and refinement of products such as TBC Wallet, a staking platform, and TBCPay.
3. Team: Support and expansion of the team of specialists working on the project.
4. Marketing: Promotion of the project in international markets to attract new users and partners.

Future plans

Over the next five years, we plan to develop and launch the following products and services:

1. TBC Wallet: A virtual wallet with zero commission for TBC and USDT transfers, as well as additional functions, including deposits and withdrawals.
2. TBC Staking: A platform for staking TBC tokens for periods of 30, 60, 90, 180 and 360 days with a yield from 1% to 5%.
3. TBC Pay: A system for securely accepting payments in TBC and USDT, designed for sellers and buyers.
4. Economic game: A game simulator for mining TBC tokens, allowing users to develop a virtual business and earn tokens.

5. Conditional Transfer Smart Contract: A decentralized financial smart contract used for escrow, crowdfunding and other purposes.

6. Cryptocurrency exchange software: A platform with access to more than 243,510 financial instruments, market analytics and high security standards.

Conclusion

TONBANKCARD continues to develop rapidly, introducing innovative solutions and improving financial services for its users. Recognition from the outside Tracxn.com and partnerships with leading exchanges underline our importance and prospects in the international arena. We are grateful for the support and continue to work to provide the best fintech products and services.
